100.0 Comments:

- a. The ingredient statement is required on the front panel.
- b. Delete "Weight Percent" from above. The declared percentages, and entire "(%)" sign after each percent.
- c. Do not line up the percentages of the available bromine and available chlorine with the percent declared in the ingredient statement. It is misleading.
- d. The statement for the available bromine and available chlorine should be similar to:
"Provides 39.2% available bromine and 44.4% available chlorine," below the ingredient statement.
- e. Please submit the actual analysis and the calculations for the available bromine and available chlorine.
