

US EPA ARCHIVE DOCUMENT

DP Barcode : D180279  
 PC Code No : 006317  
 EEB Out : AUG 27 1992

To: Linda DeLuise  
 Product Manager 52  
 Special Review and Reregistration Division (H7508W)

From: Douglas J. Urban, Acting Chief  
 Ecological Effects Branch/EFED (H7507C)

Attached, please find the EEB review of...

Reg./File # : 006317-6836  
 Chemical Name : 1,3-Dibromo-5,5-dimethylhydantoin  
 Type Product : Microbiocide  
 Product Name :  
 Company Name : Lonza Inc.  
 Purpose : List C Phase IV

Action Code : 602 Date Due : 8/18/92  
 Reviewer : Renee Lamb

EEB Guideline/MRID Summary Table: The review in this package contains an evaluation of the following:

GDLN NO	MRID NO	CAT	GDLN NO	MRID NO	CAT	GDLN NO	MRID NO	CAT
71-1(A)	930760-02	S	72-2(A)	930760-22	Y	72-7(A)		
71-1(B)			72-2(B)			72-7(B)		
71-2(A)	930760-03	S	72-3(A)	930760-08	Y	122-1(A)		
71-2(A)	930760-04	S	72-3(B)	930760-09	Y	122-1(B)		
71-3			72-3(C)	930760-10	Y	122-2		
71-4(A)			72-3(D)			123-1(A)		
71-4(B)			72-3(E)			123-1(B)		
71-5(A)			72-3(F)			123-2		
71-5(B)			72-4(A)			124-1		
72-1(A)	930760-20	Y	72-4(B)			124-2		
72-1(A)			72-5			141-1		
72-1(B)			72-6			141-2		
72-1(C)	930760-27	Y				141-5		

Y=Acceptable (Study satisfied Guideline)/Concur  
 P=Partial (Study partially fulfilled Guideline but additional information is needed)  
 S=Supplemental (Study provided useful information but Guideline was not satisfied)  
 N=Unacceptable (Study was rejected)/Nonconcur

AND TOXIC SUBSTANCES

MEMORANDUM

Subject: 1,3-Dibromo-5,5-dimethylhydantoin (006317) Phase IV  
review for Lonza Inc.

From: Doug Urban, Acting Branch Chief  
Ecological Effects Branch  
Environmental Fate and Effects Division (H7507C) *Doug Urban 8/26/92*

To: Linda DeLuise PM 52  
Special Review and Reregistration Division. (H7508W)

Attached please find the Ecological Effects Branch Phase IV  
review for 1,3-Dibromo-5,5-dimethylhydantoin chemical number  
006317.

The new EEB policy (7/13/92) to support registration of  
industrial microbiocide uses now requires a limited set of data.  
Although EEB does not do a risk assessment on these uses, the  
data is required in order to determine precautionary labeling.  
EEB believes the proximity of these installations to marine and  
estuarine environments, thus the increased exposure to non target  
organisms, justifies requiring the additional data.

There were no new data submissions with this package. However,  
the following studies were mentioned in the Phase 3, and were  
used in the evaluation of data requirements for this chemical:

MRID NUMBER	CATEGORY	GUIDELINE
930760-03	Supplemental*	71-2(a)
930760-02	Supplemental*	71-1(a)
930760-04	Supplemental*	71-2(a)
930760-20	Core	72-1(a)
930760-27	Core	72-1(c)
930760-22	Core	72-2(a)
930760-08	Core	72-3(a)
930760-09	Core	72-3(b)
930760-10	Core	72-3(c)

\*Study can be ungraded to core.

If there are any questions contact Renee Lamb at 305-5294.

59

1. Composition: TGA= Technical grade of the active ingredient; PAIRA=Pure active ingredient, radiolabeled; TEP=Typical end-use product
2. Use Patterns: A=Terrestrial Food Crop; B=Terrestrial Feed Crop; C=Terrestrial Non-Food Crop; D=Aquatic Food Crop; E=Aquatic Non-Food Outdoor; F=Aquatic Non-Food Industrial; G=Aquatic Non-Food Residential; H=Greenhouse Food Crop; I=Greenhouse Non-Food Crop; J=Forestry; K=Outdoor Residential; L=Indoor Food; M=Indoor Non-Food; N=Indoor Medical; O=Indoor Residential; Z=Use Group for Site 00000
3. Data for one avian dietary study and one avian acute oral study (bobwhite quail preferred) are required for uses not requiring a risk assessment(F,G,M).
4. Additional data required to upgrade study to core. All avian studies are deficient as the percent active ingredient of the test material was not identified. See Data Evaluation Record.
5. Estuarine studies are required to support the following uses: once through water cooling systems, pulp/paper mills, secondary oil recovery injection water, and oil recovery drilling muds/packer fluids.

MRID: 93078 000

OFFICE OF  
PESTICIDES AND TOXIC SUBSTANCES

Dear Phase 3 Submitter:

Your Reregistration Phase 3 submission captioned above has been screened for compliance with PR Notice 89-3, and has been found unacceptable for further review. Due to its size we have not returned your submission to you, but the entire package is available for pickup at during normal business hours at the street address listed below.

We have listed below the major problem areas we identified in our screening of your package. The presentation of your submission was too confusing to allow us to itemize every problem. Please review the Phase 3 guidance package, particularly PR Notice 89-3, before resubmitting your package.

- o There must be a valid MRID in column 5 for each summary and reformatted version of a previously submitted study being submitted.
- o All summaries and reformats submitted must correspond to appropriate marks in columns 7 and 9 of the Phase 3 Response Worksheet.
- o Submit one copy of each document.
- o Each summary and reformat must have a title that begins with the words "Phase 3 Summary (or Reformat) of MRID NNNNNNNN...".
- o Each summary and reformatted study must have a Good Laboratory Practice compliance statement on page 3 signed by the study director, the study sponsor, and the study submitter. See 40 CFR 160.12.
- o Page 4 of each summary must bear a Certification of Access to Raw Data using the mandatory language specified in Section VIII(D) of PR Notice 89-3 and one of the two alternative forms of the Certification of Accuracy of the Summary and Adequacy of the Study defined in Section VIII(E) of PR Notice 89-3.

If your corrected resubmission of these documents is received within three weeks of the date of this letter, your Phase 3 response will still be accepted. If you have any questions about the basis for these rejections, or about what you

17  
10 H

must do to make these documents acceptable, please call (703)557-2363.

When you resubmit, identify your resubmission clearly as a "Phase 3 Resubmission" and submit it by mail to:

RE: HALOHYDANTOIN PHASE 3 REREGISTRATION DOCUMENTS

Dear Mr. Spurling:

Enclosed is one copy of the revised Phase 3 Reregistration response package for the following chemicals:

1. Bromo-3-chloro-5,5-dimethylhydantoin  
Chemical Number 006315
2. Dibromo-5,5-dimethylhydantoin,  
Chemical Number 006317
3. Dichloro-5,5-dimethylhydantoin  
Chemical Number 028501
4. Dichloro-5-ethyl-5-methylhydantoin  
Chemical Number 128826

The chemistry package submission for DANTOBROM<sup>TM</sup> represents data obtained on the commercial product as sold by Lonza. The process used for the manufacture of the product, as described in the package, results directly in the mixture of components given in the Confidential Statement of Formula. These components are not isolated separately, nor are they manufactured in purified form by Lonza.

Original Phase 2 submissions identified the separate chemical entities as the title compounds. These materials are not used by Lonza in the formulation of DANTOBROM<sup>TM</sup>. Halogen distribution in a mixed bromine/chlorine product of this type is an equilibrium process that results in a statistical distribution of all possible halogen isomers. Isolation of the pure components from this technical mixture is not a practical route to obtain the amounts required for a comprehensive analysis program.

Response

- 2 -

February 14, 1991

We intend to comply fully with all pertinent regulations but may require further guidance from EPA in this area.

We appreciate your patience in allowing us this extended deadline for the submission. We regret any inconvenience the previous submission may have caused.

Sincerely yours,

LONZA INC.

### CHANGES MADE TO REREGISTRATION PHASE 3 WORKSHEET

CASE: 3055  
CHEMICAL: 006317  
COMPANY: 006836

CHANGES MADE BY: N. Spurling, ASG  
DATE: 2/19/91

Lonza resubmitted this worksheet in Feb. 1991 with a checkmark for correspondence in 63-5. The document that they submitted did not include this guideline; it included 63-6 Boiling Point. I have therefore deleted the correspondence check for 63-5 and added it to 63-6.

Lonza also reversed its guidelines for 72-3(b) and 72-3(c). I have corrected them.

**CHECKLIST FOR CONTENTS OF PHASE 3 AND R.E.D.s DATA PACKAGES TO SCIENCE BRANCHES**

The following checklist was developed to assist Chemical Reviewer Managers in assembling the Phase 3 review packages for science review. In the long run careful preparation of packages as presented below will save time for everyone. Please insure that all items are in order and that copies are readable.

Chemical: \_\_\_\_\_ Case #: 3055 Chemical #'s: \_\_\_\_\_  
 Chemical Review Manager: AMJ Phone: \_\_\_\_\_ Date sent: \_\_\_\_\_

**I. Phase 3 submissions Comments**

- a. Bean sheet and SMARTS form is included for each company and chemical #.....
- b. Low Volume/Minor Use BEAD analysis attached.....  No
- c. SRRD decisions of administrative waivers attached.....  No
- d. All correspondence is in proper order, readable, and all components are in the package (eg. If registrant is asking for waivers referenced in correspondence, is relevant material attached?).....
- e. Science branch response to Phase 2 (for appropriate branch only) is included.....
- f. Blowbacks of studies are attached (These blowbacks include all studies with summaries as well as studies claimed to be acceptable in Phase 3 correspondence or other material.....

**II. Use Profile**

- a. Written program definition on uses attached.....
- b. Aggregate LUIS report attached for: EEB  TOX  CBI   
 (Check one) EFGWB  OREB  CBII   
 (Report should be concise and include  
 1. Use patterns  
 2. Use categories within each use pattern  
 3. Restrictions  
 4. Maximum application rate, indicating clearly if it is per season or per year.
- c. General LUIS Report attached for: EEB  TOX  CBI   
 (Check one) EFGWB  OREB  CBII

**III. Product Chemistry Information (for EFGWB only)**

- a. Summaries for guidelines 63-2 thru 63-21 attached (These should not include manufacturing processes, determination of impurities, etc.).....

**RE: PHASE 3 RESPONSE**

**COMPANY NAME:** Lonza Inc.  
**COMPANY NUMBER:** 6836  
**CASE NUMBER:** 3055  
**CASE NAME:** Bromo-3-Chloro-5,5-Dimethylhydantoin  
Dibromo-5,5-Dimethylhydantoin  
Dichloro-5,5-Dimethylhydantoin  
Dichloro-5-Ethyl-5-Methylhydantoin

**CHEMICAL NUMBER:** 6315; 6317; 28501; 128826 *No FTB 1/2*

Dear Mr. Myers:

Lonza, by this letter, is agreeing to perform all of the necessary testing to maintain the following registrations:

<u>PRODUCT</u>	<u>EPA REG. NO.</u>
Glychlor Powder	6836-109
Bromchlor	6836-110
Glycoserve LAD	6836-111
Glycoserve	6836-112
Dantochlor RW	6836-113
Dantochlor	6836-114
Dantobrom RW	6836-115
Dantobrom S	6836-116
Dantobrom	6836-117
Dantobrom P	6836-118
Dantogard	6836-119
Glybrom RW-90	6836-120
Glybrom RW-92.5	6836-121
Glybrom RW-93.5	6836-122
Glybrom RW-95	6836-123
Glybrom RW-97.5	6836-124

Continued ....

July 24, 1990

Lonza has withdrawn our offer to cite the data currently being generated by Great Lakes Chemical Co. preferring to develop our own data package. All new data will be developed on dimethylhydantoin (DMH) as per the Agency's request and instruction. Per our conference call of July 20, 1990, C. Rice (EPA), S. Schatzow (Lonza attorney), and J. Conti (Lonza), all existing data meeting EPA "Adequacy Standards" conducted prior to July 1990 on any of the following:

- (A) dimethylhydantoin and/or its halogenated species and
- (B) ethylmethylhydantoin and/or its halogenated species could be used to satisfy requirements.

It is further stated that the chemistry package supplied on Dantobrom can be used to satisfy all component chemistry requirements since none of these chemicals are manufactured separately nor are they commercially available through Lonza.

It is the understanding of Lonza that this data package will satisfy:

- 1). All halogenated dimethyl and ethylmethyl hydantoins (EMH) i.e. 100% ethylmethyl hydantoin and 100% dimethylhydantoin and all combinations thereof.
- 2). All methylol derivatives of dimethyl and ethylmethyl hydantoin. Including compounds registered after November of 1984 to present i.e. Registration numbers 6836-111, 6836-112, 6836-119.
- 3). All esterified and ethoxylated derivatives of dimethyl and ethylmethyl hydantoin, currently there are no EPA registrations.

Based upon our evaluation for Phase 2 Reregistration, Lonza has determined our use group areas to be:

- 1). Aquatic non-food industrial
- 2). Aquatic non-food residential
- 3). Indoor food
- 4). Indoor non-food

Continued ....
