Special Review and Reregistration Division (7508W)

We have examined the Bromacil bean sheet and data package submitted by E. I. du Pont de Nemours and Company pertaining to the analytical behavior of Bromacil FDA Multi-Residue Protocols B, C, and D. Protocols A and E were not applicable for this chemical.

We have forwarded this submission to FDA for evaluation and inclusion in Pam Vol I, Appendix I.

Unless FDA requests additional information, EPA will consider this study sufficient to fulfill the data requirements for submission of Multi-Residue Testing Data under 40 CFR 158.240(b)(15) for Bromacil.
