Background

The purpose of this amendment is to revise the emesis statement. A method of support was not submitted. Data were not submitted. Amendment was submitted 4-18-80.

Recommendations

1. FHB/TSS has no objection to the proposed change in precautionary labeling for this product. However, please note that for other products, particularly those products with low acute oral LC₅₀'s, the benefits of emesis outweigh the risks. Where the benefits outweigh the risks, the "induce vomiting" statement may be required on the labeling.

Labeling Recommendations

1. The statement:

"Keep children and domestic animals off treated areas until this material has been washed into the soil."

must appear as a general restriction under the DIRECTIONS FOR USE section of the labeling and not under the HAZARDS TO HUMANS AND DOMESTIC ANIMALS section.

2. The statement:

"DO NOT feed treated foliage to livestock or graze treated areas."

must appear as a general restriction under the DIRECTIONS FOR USE and not under the ENVIRONMENTAL HAZARDS section of the labeling.
