OFFICE OF  
PESTICIDES AND TOXIC SUBSTANCES

MEMORANDUM

SUBJECT: Mancozeb Composition Analyses  
Request for Time Extension  
ID NOS. 352-341, 352-354;  
RCB NOS. 3734, 3503

FROM: H. Fonouni, Ph.D., Chemist  
Residue Chemistry Branch  
Hazard Evaluation Division (TS-769C)

TO: L. Rossi (PM-21)  
Herbicide/Fungicide Branch  
Hazard Evaluation Division (TS-769C)

THRU: William J. Boodee, Section Head  
Residue Chemistry Branch  
Hazard Evaluation Division (TS-769C)

*H. E. Fonouni*

*WJB*

In response to the Mancozeb Registration Standard's requirement for submission of new batch analyses (April, 1987). E. I. Du Pont De Nemours & Company, Inc. has requested an extension of 60 days to comply with the requirement. The reasons provided include:

- a) a lack of availability, of authentic samples of impurities, and analytical methodologies to quantitate them without significantly changing their constitution;
- b) difficulties encountered in transporting samples from manufacturing facilities [REDACTED]

The Residue Chemistry Branch (RCB) has no objection to the requested time extension. However, we recognize that granting of time extensions is a Registration Division administrative decision.
