MEMORANDUM

OFFICE OF
PESTICIDES AND TOXIC SUBSTANCES

Subject: Special Review for Maneb
EBDC Data Call In. Task Force submission of product chemistry
data 10/21/85. Accession No. 259866 [RCB No. 314]

From: Martha J. Bradley, Chemist *MJ Bradley*
Residue Chemistry Branch
Hazard Evaluation Division (TS-769)

Thru: Charles L. Trichilo, Chief
Residue Chemistry Branch
Hazard Evaluation Division (TS-769)

To: H. Jacoby, PM 21
Registration Division (TS-767C)

Susan Lewis, Data Call In
Registration Division (TS-767C)

Frank Sanders
Registration Division (TS-767C)

This EBDC data package was submitted in connection with the NRDC suit. It is being expedited at the request of the HED Deputy Director.

The Maneb Task Force has submitted a thirty day storage stability study for a maneb technical held at 23°C and at 50°C.

The registrants should supply the following additional information concerning this study.

1. The source of the maneb technical used for this study and whether this is a continuation of the 10 day storage stability study submitted 8/29/85.
2. The results of the analysis of the maneb technical at the start of the study.
3. The purpose of this study. Storage stability data are not needed for the technical material. Storage stability data are needed for each manufacturing-use product; the use of a "generic" maneb technical will not satisfy the Series 63-17 storage stability requirements.
