PESTICIDES AND TOXIC SUBSTANCES

MEMORANDUM

SUBJECT: Maneb Special Review. Multiresidue Protocols.
MRID # 407320-01. DEB # 4215.

FROM: Leung Cheng, Chemist *L. Cheng*
Special Registration Section II
Dietary Exposure Branch
Health Effects Division (TS-769C)

THRU: Edward Zager, Section Head *E. Zager*
Dietary Exposure Branch
Health Effects Division (TS-769C)

TO: G. Werdig, PM 50
Data Call In Program
Registration Division (TS-767C)

In response to the 4/1/87 Maneb Comprehensive Data Call In, the Maneb Registration Group has submitted a report describing the behavior of maneb when subjected to the PAM multiresidue analysis protocols.

Maneb standard was tested by 3 different GC columns using 2 detectors. There was no response of maneb and thus no recovery data were obtained.

Maneb standard was also tested by HPLC using 2 detection systems. No response of maneb was obtained.

No data for ETU were included in the report.

The data is being sent to FDA to be included in PAM I and PESTRAK.
