ATTN: Mr. W. Stokes

DATE: May 1, 1967

FROM: Mr. M. L. Quafe
Petitions Review Branch
Division of Toxicological Evaluation

M. Quafe 5/1/67

Reference

SUBJECT: 2,4-Dichlorophenoxyacetic acid (2,4-D), dimethylamine salt of, request for tolerance at 2 ppm in or on apricots.

PESTICIDE PETITION NO. 770589

Thompson Chemicals Corporation
23529 South Figueres Street
Wilmington, California 90784

Safety of the requested tolerance is well established by experimental work carried out in our laboratories, including chronic rat and dog feeding studies and a three-generation rat reproduction test.

CONCLUSION:

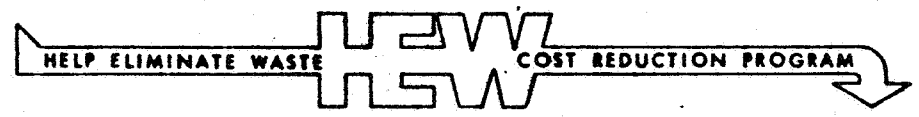

The requested tolerance will be safe.
