

US EPA ARCHIVE DOCUMENT

# 586

2-10-76  
CASWELL FILE

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

SUBJECT: Sargeant's Long-Lasting Household Insecticide

DATE: FEB 10 1976

FROM: Toxicology Branch

TO: Mr. Frank Gee

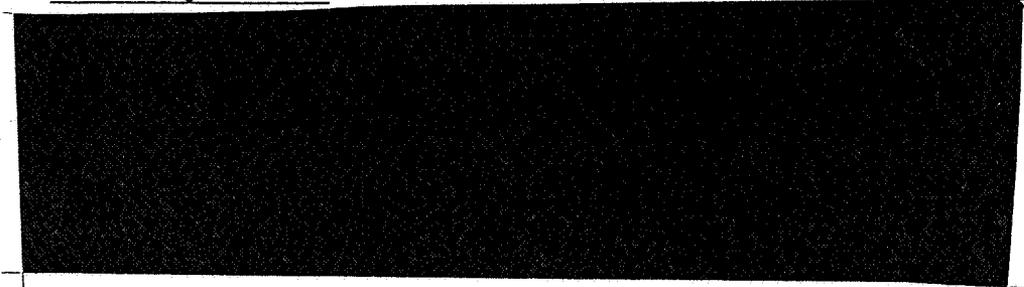

Registration No.: 778-GI

Formulation:

Active Ingredient

Naled technical (90% active) 30%

Inert Ingredients

Recommendation:

Toxicology Branch cannot assess the adequacy of this label nor classify this product until the following studies are submitted or referenced for both the active ingredient and formulation. Since the formulation is a hanging strip, it is suggested that the registrant reference the data for the technical and submit evidence that the [redacted] does not increase the acute hazard:

- Acute Oral LD50
- Acute Dermal LD50
- Acute Inhalation LC50
- Primary Eye Irritation
- Primary Skin Irritation
- Teratology Study (Active Ingredient)
