MEMORANDUM

SUBJECT: Reregistration of Metam-sodium. UCB Chemicals Corp.
Product Chemistry Considerations. Rereg. case# 2390;
Chemical# 39003. MRID# 424989-01. CBRS# 10838.
Action: 627 Generic Data Submission. Submission #
S428776. Barcode D184388.

Introduction

Metam-sodium [sodium N-methyldithiocarbamate], a List B chemical, is registered as a preplant soil fumigant. The chemical structure of metam-sodium is given below. In our Phase 4 Review [S. Funk & C. Olinger; 5/10-13/91], we noted that the CAS registry number for the active ingredient is required.

61-1 - Product Identity and Disclosure of Ingredients

The registrant has now submitted all of the required information on the identity of their technical product metam-

Metam NA. 002

Metam NA. 004

sodium; 39003 [MRID No. 42498901]. The CAS registry number is given as 137-42-8.

No further information is needed under this topic.
