Enclosed are Amvac's and Chas H. Lilly's 90-day response to the DCI requesting the low volume minor use waivers, a copy of the Data Requirements levied in the DCIs, and a copy of the Economic Analysis that were completed by the Biological and Economic Analysis Division. I am requesting an expedited review of these waiver requests since the registrants will need to initiate these studies soon to meet the designated due dates for these studies should the Agency deny these waivers. For this reason, I request that the review of these waivers be completed within three weeks upon receipt of this submission. Please let me know if you cannot complete your review by this date. I appreciate all of your help.
