Dear Mr. Castillo:

Reference is made to your letter of 16 August 1977, addressed to Mr. Morris R. Rogers, of this Command, Subject: Paranitrophenol, EPA File Symbol 40510-E, Our Application for Registration of May 4, 1977.

Paragraph 2 of your letter indicated that wear test, AE40-440, was unreadable because of faulty photocopy and requested that this study be resubmitted in legible form. Enclosed are two new photocopies of the wear test which have been forwarded to us by the U.S. Army Environmental Hygiene Agency. These copies are provided for each of the two copies of the petition previously provided you. In addition, we are enclosing:

- a) A method used for determination of methemoglobin and total hemoglobin (4 pages, 25 Sept. 1957).
- b) Determination of paranitrophenol and metabolites, thereof, in urine, (8 pages, MEDEI 2214T234-55, 6 Nov. 1957).
- c) A rapid routine method for determination of paranitrophenol in urine. R. K. Waldman & L. A. Krouse. Occupational Health, 12, No. 3, 37-38 (1952).
- d) Determination of paranitrophenol in urine in parathion poisoning cases. J. T. Mountain et al. Indust. Health Monthly, 11, No. 5, 88-89 (1951). (Reprint - 5 pages).
- e) Determination of methemoglobin. Industrial Hygiene Laboratory, Analytical Method No. 20-A (3 pages).

Acknowledgement of receipt of the above is requested.
