Division of Toxicological Evaluation
Pesticide Review Branch

Carbaryl (Orvin, 1-Naphthyl-3-Methylcarbamate): For the establishment of a tolerance of 5 ppm on or in potato tubers.

PESTICIDE PETITION NO. 770-537
(Final)

Union Carbide Corporation
S. Charleston, West Virginia
(AF 15-522)

MR. feels we can entertain no new tolerances for Carbaryl until the reports of possible teratological effects in dogs are resolved.
