MEMORANDUM

SUBJECT: Review of Bee Labeling for Sevin RP2-HE
FROM: *James W. Akerman*
James W. Akerman, Chief
Ecological Effects Branch
Environmental Fate and Effects Division (H7507C)
TO: Dennis Edwards, PMT-12
Insecticide/Rodenticide Branch
Registration Division (H7505C)

EEB has reviewed the proposed bee precaution labeling for Sevin RP2-HE Carbaryl Insecticide. The registrant proposes to continue deletion of the "or residues" statement in the bee precaution labeling.

The registrant proposes bee labeling identical to that now used on the Sevin SL product label. The rationale is that Sevin RP2-HE is a dilution of Sevin SL, the former being a 2 lb ai/gallon product, as opposed to 4 lb ai/gallon for Sevin SL. Otherwise, the products are identical.

In view of the above, EEB concurs with the registrant's proposal. The bee precaution labeling submitted with the current proposal is appropriate for Sevin RP2-HE.

Any questions or comments on this memo should be referred to Allen Vaughan at 557-0464.
