Studies must be continuously paginated from the title page through the end of the study and all appendices--except for the Confidential Attachment or Supplemental Statement of Confidentiality Claims, if present--even when the study is large enough to span more than one physical volume.

Each of the independent study reports in this group should have been bound as a separate study.

Data Requirement Listings, Data Call-In Coversheets, EPA form 8570-1, EPA form 8570-4 and labels are considered to be administrative material rather than data and should not be bound as part of a study.
