SUMMARY OF INFORMATION REVIEWED AND FINDINGS

- The registrant has submitted additional data at the request of the Agency to complete the information required by 40 CFR, Part 158 for registration. The data submitted are acceptable. A waiver for the complete storage stability studies was requested and is granted on the condition that the complete study be submitted when completed. At the present time, this product is stable for a six-month period only. The certified upper and lower limits have been adjusted to comply with Agency standards, and the role of the [REDACTED] has been clarified. Information for Series 830.6320-7300 has been provided. A five-batch analysis for content of active ingredient was also submitted and is acceptable. The revised Statement of Formula, dated March 30, 1999, is approved. The ingredient claims statement of the label is consistent with the Confidential Statement of Formula and meets recommendations of PR Notice 91-2.

NEW INGREDIENT INFORMATION IS NOT INCLUDED
