(Handwritten signature)

Reference: Atrazine and Metolachlor
Location: Walworth Co., WI

Reason for investigation: No investigation conducted by Ciba Geigy; we split water samples at the request of the site owner.

Well locations: No direct knowledge

Pesticide use history: No direct knowledge

Number of wells investigated: Unknown

Number of wells with detects: Unknown

Depth of water table: No direct knowledge

Depth of well: No direct knowledge

Ground water flow direction: Unknown

Past spill or disposal: Unknown

Well construction: No direct knowledge

Water use: Unknown

Comments: This site was included in a study conducted by the Wisconsin Departments of Agriculture, Trade & Consumer Protection (DATCP). The title of the study is the Pesticide Mixing/Loading Site Assessment Study and our samples were taken at the request of the site owner to confirm results from this study. Any questions about the site or this study should be referred to:

Attn: Mr. Robert J. Taylor, PM 25

Dear Mr. Taylor:

**SUBJECT: CIBA-GEIGY RESPONSE TO YOUR LETTER OF
JANUARY 29, 1992
REQUEST FOR ADDITIONAL INFORMATION ON FINDINGS OF
ATRAZINE IN GROUNDWATER IN WALWORTH COUNTY, WI**

In accordance with the subject letter, attached is additional information pertaining to the finding of atrazine in groundwater in Walworth County, Wisconsin as described in correspondence to you dated November 27, 1991 and January 3, 1992.

Please note that the request for the names and detection levels of the chemicals manufactured by other registrants is not addressed. CIBA-GEIGY believes that FIFRA Section 6(a)(2) is clear that CIBA-GEIGY as a registrant of pesticides is responsible for reporting only those findings of CIBA-GEIGY chemicals which may pose an unreasonable adverse effect and therefore is under no legal obligation to report findings of other manufacturers' chemicals. Until such time as the Agency challenges CIBA-GEIGY on this point or CIBA-GEIGY alters its position, we will continue to report only those findings of CIBA-GEIGY pesticides in ground or surface water.

Sincerely,

Karen S. Stumpf

Attachment

1. CHEMICAL: Common name(s): atrazine and metolachlor

Chemical name(s): 2-chloro-4-(ethylamino)-6-(isopropyl amino)-s-triazine

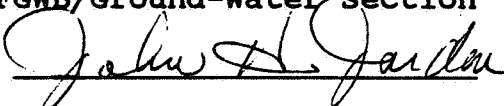

Structure (s):

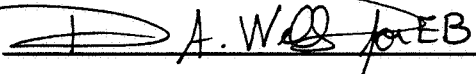

2. TEST MATERIAL: N/A

3. STUDY/ACTION TYPE: 6(a)2 follow-up Action. The Wisconsin Department of Agriculture, Trade and Consumer Protection (DATCP) is conducting the study. Some detections of atrazine and metolachlor from the study were reported by Ciba-Geigy as 6(a)2 information in this action.

4. STUDY IDENTIFICATION: Study not received to date - atrazine, metolachlor residue detections were reported. The title of the study is, "Pesticides Mixing/loading Site Assessment Study" conducted by the Wisconsin Department of Agriculture, Trade & Consumer Protection (DATCP) in Walworth County, Wisconsin. Split water samples were taken by Ciba-Geigy on request of the site owner.

5. REVIEWED BY: John H. Jordan, Ph.D.
OPP/EFED/EFGWB/Ground-Water Section
Signature: 

Date: 11/25/92

6. APPROVED BY: Elizabeth Behl, Head
OPP/EFED/EFGWB/Ground-Water Section
Signature: 

Date: 11/25/92

7. CONCLUSIONS: The study referenced above in STUDY IDENTIFICATION has been requested from WDATCP-ARM and the data will be incorporated in the Pesticides and Ground-Water Data Base.

8. RECOMMENDATIONS: The registrant should continue to report 6(a)2 information so that the Agency can develop a worthwhile data base and also, in cooperation with the states and registrants, monitor pesticide levels in ground water.

9. BACKGROUND/DISCUSSIONS: Additional specific information was requested (EFEB # 92-0465 - 10/6/92) to locate/identify and evaluate the reported detections of pesticide residues in ground water. The present Ciba-Geigy submission, in EFGWB # 92-0679, contains none of the information requested and refers EFGWB to the original study director at WDATCP-ARM. The pesticide detections reported by Ciba-Geigy under 6(a)2 were follow-up detections from samples of an original monitoring study conducted by WDATCP-ARM. The study director was Paul Morrison of Wisconsin DATCP-ARM. EFGWB Branch/Ground Water Technology Section has requested the DATCP study for inclusion in the Pesticides and Ground-Water Data Base.
