APR 17 1992

OFFICE OF  
PESTICIDES AND TOXIC  
SUBSTANCES

MEMORANDUM

SUBJECT: Simazine: Product Chemistry Requirements for the  
Ciba-Geigy Technical (EPA Reg. No. 100-541). No  
CBRS No.: No DB Barcode No.

FROM: William O. Smith, Ph.D., Chemist *William O. Smith*  
Reregistration Section I  
Chemistry Branch II-Reregistration Support (CBRS)  
Health Effects Division (H7509C)

THROUGH: Edward Zager, Branch Chief *M. Metzger for*  
Chemistry Branch II - Reregistration Support  
Health Effects Division (H7509C)

TO: ~~Venus Eagle~~  
Reregistration Branch  
Special Review & Reregistration Division (H7508W)

As requested by SRRD, we are supplying you with a summary of our comments on the response by Ciba-Geigy to the product chemistry portion of a Simazine DCI of 09/12/91. These comments were made in a meeting with the Agency held on 4/7/92. CBRS was represented by R. Perfetti and M. Metzger at that meeting.

61-1 (a) & (b) - The registrant points out that information to fill these requirements was submitted in MRID 40765101. CBRS is aware of this and has reviewed this submission (Memo from H. Fonouni to R. Mountfort, dated 9/16/88). These data requirements have been met for Ciba-Geigy's Technical (EPA Reg. No. 100-541).

62-1, 2 & 3 - The registrant has submitted further data pertaining to these guidelines and they are currently under review in the Branch.

63-2 to -13 - These requirements do not apply to the Ciba-Geigy Technical (EPA Reg. No. 100-541). They have been filled by previous submissions from the registrant.

cc: W. Smith, Simazine Reg. Std. File, SF, RF, C. Furlow
