SUMMARY OF INFORMATION REVIEWED AND FINDINGS

This application is for registration of a new product. Submitted are two CSFs the basic and alternate, each has different brand name.

- A. Three ingredients in each CSF are not in Agency's data base. Therefore registrant should ask his supplier of [REDACTED] and [REDACTED] for these three ingredients complete chemical composition including chemical name, CAS Reg. No. and percentage of each component in each ingredient mixture. Note that enclosed MSDS sheets do not give complete chemical identity.
- B. Both CSFs will be accepted when all ingredients will be cleared by the Agency and pc codes will be assigned.
- C. Provided product chemistry data in MRID No. 445872-01 provides data for Guideline Suis 61, 62 and 63 and data matrix for 63. These data are in compliance with HOCFR part 158.155 through 158.190 and it satisfies product chemistry data for this product.
- D. Confidential Statements of Formule agree with the label.
