Toxicology Branch

1.0 INTRODUCTION

Mobay has submitted a request to allow the use of Namacur, a herbicide, on cocoa beans and garlic.

2.0 Namacur

Ethyl-4-(methylthio)-m-tolyl-isopropylphosphoramidate

3.0 DISCUSSION

This current submission requests use on cocoa beans and garlic.

On September 18, 1981, and again on July 27, 1982, EFB noted a data deficiency (photolysis study) which remains unresolved.

4.0 RECOMMENDATION

EFB cannot concur with the proposed additional use until the requisite photolysis study has been submitted, reviewed, and found satisfactory.
