Conclusions

This submission cannot be reviewed by the Environmental Safety Staff due to a lack of supportive data.

Prior to consideration of registration, the following studies must be submitted or referenced:

- (a) the dietary LC<sub>50</sub> for one species of waterfowl (mallard duck) and one species of upland game bird (bobwhite quail or ring-necked pheasant),
- (b) the acute 48-hour LC<sub>50</sub> for an aquatic invertebrate (Daphnia sp., preferably).

The above basic studies are required for the technical grade of each active ingredient. The studies submitted with this application will be reviewed pending receipt of above study(ies).
