

US EPA ARCHIVE DOCUMENT

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

File
PETITION
7F1954

DATE: June 29, 1978
SUBJECT: Oxamyl Methabolites PP #7F1954
FROM: George E. Whitmore
Acting Chief, Toxicology Branch
TO: John Worthington, Chemist,
Chemistry Branch

This memorandum is in reference to the mentioned conversation in the June 22, 1978 memorandum wherein it is stated that there was no toxicological concern for residues of DMCF, the demethylated oxime metabolites or their congenates and that these compounds need not be included in the tolerance expression.

This memorandum is for the purpose of reiterating this decision.

George E. Whitmore
