MEMORANDUM

SUBJECT: Registration Standard (FRSTR) for Terbufos -
Nontarget Insect Studies

FROM: Allen W. Vaughan, Entomologist
Ecological Effects Branch
Hazard Evaluation Division (TS-769-C)

Allen W. Vaughan
10.5.87

THRU: Otto Gutenson, Acting Head - Section 4
Ecological Effects Branch
Hazard Evaluation Division (TS-769-C)

Otto Gutenson

THRU: Henry T. Craven, Acting Chief
Ecological Effects Branch
Hazard Evaluation Division (TS-769-C)

Henry T. Craven
10/5/87

TO: Marilyn Mautz, PMT-16
Insecticide/Rodenticide Branch
Registration Division (TS-767-C)

The Ecological Effects Branch (EEB) has reexamined the Terbufos Registration Standard with regard to nontarget insects. EEB's nontarget insect hazard evaluation remains essentially unchanged. As terbufos is registered only as a granular formulation, there is no potential for significant bee exposure. Thus, there are no requirements for testing on honey bees and no requirements for bee precaution labeling.
