COMMENT:

I. **BACKGROUND:** The Rohm and Haas Company has submitted a single Confidential Statement of Formula (CSF) to support the data requirements of their pending registration. The CSF, for EPA File Symbol 707-GER, is dated 10/27/2010.

II. FINDINGS:

- A. The concentration of the active ingredient on the Confidential Statement of Formula (CSF dated 10/27/2010) is consistent with the label declaration.
- B. All ingredients are cleared for use in pesticidal formulations.
- C. All certified limits are acceptable. Actually, the Certified Limits for the inert ingredient are narrower than they need to be. However, they are still acceptable.

III. CONCLUSIONS:

Product Science Branch of Antimicrobials Division finds the product chemistry submission for EPA File Symbol 707-GER to be acceptable.
