TECHNICAL SUPPORT SECTION EFFICACY REVIEW - II

Disinfectants Branch

EPA Reg. No. or File Symbol 34292-1 and 34292-2

Date Division Received 10-15-85

Data Accession No(s). None

Product Manager No. 31

Product Name Dow Corning 5700 and 5772 Antimicrobial agents

Company Name Dow Corning

The pending applications are to amend the registrations to add laundry additive as a new use. The products are intended to be added to liquid laundry detergents. The detergents are then used to provide residual bacteriostatic and fungistatic activity to the treated laundry. Since the products are added to the detergent formulations rather than directly to the laundry, the treated detergents will be considered pesticides and registration under the Act will be required for the detergents.
