SUMMARY OF INFORMATION REVIEWED AND FINDINGS

This application is for registration of a new product for manufacturing use an antimicrobial agent and protectant.

Confidential Statement of Formula dated 10-15-97, which was registered source for the active ingredient, this CSF is in compliance with PR Notice 91-2, it agrees with the label and is acceptable.

The other Confidential Statement of Formula dated 8-15-97, which was an unregistered source for the active ingredient, is not acceptable.

Using unregistered source complete chemical identity must be listed in the CSF including chemical name and the amount of each ingredient in unregistered source.

Provided product chemistry data in MRID Nos 442794-01, 442794-02, 442794-03 and 442794-04 provides data for Guideline Serial Nos 61, 62 and 63 and it satisfies product chemistry data for this product except for
Guidance Ref No. 63-3 - analytical method to verify certified limits for active ingredient and
63-20 - corrosion characteristics.

Note to PM:

Is claim "Provides a durable, residual, antimicrobial treatment that is not destroyed by repeated cleaning,"

is this claim acceptable

Also: "Contains no phenols, tin, heavy metals, lead, mercury, or formaldehyde"

"Product performance with little degradation up to 375°F."
