Introduction

In 1993, Biologic Inc. submitted a developmental toxicity study in rats with triforine. This study was evaluated and classified as supplementary (Tox. Doc. No. 010687) because the report did not have any information on the purity of the test chemical.

Evaluation and Discussion

The supplemental data indicated that the test chemical was 99.8% pure. The study is upgraded to minimum and meets the data requirements for a developmental toxicity study in rats (Guideline No. 83-3a).
