MEMORANDUM:

TO: EEB File on Pendimethalin

On 4-11-83 R. Taylor (PM-21), at the request of American Cyanamid Company, verbally requested clarification of three EEB reviews. The request concerned the field monitoring study and whether it was a requirement at this time. I requested R. Farringer to examine the matter, and he indicated, after discussion with J. Tice, that the field monitoring study should not be a requirement at this time. I verbally forwarded this information to R. Taylor on 4-12-83.

The reviews under discussion in this situation were as follows:

| Reviewer     | Use(s)                       | Date of Review | Reviewer's Conclusion Concerning Field Monitoring Study |
|--------------|------------------------------|----------------|---|

| M. Rexrode   | Peas                         | 3-15-83        | Required  |
