Registration Division (TS-767-C)

The registrant, Shell Oil Company, has requested an extension of the due date for submitting the esfenvalerate (ASANA) mysid shrimp life-cycle study that they have contracted with Springborn Bionomics Inc. The reasons that they cite are as follows: 1) mysid shrimp were unavailable until September; and 2) analytical capability and start-up of the study must await the establishment capability at DuPont (DuPont now owns the rights to ASANA).

The registrant is requesting that the due date for submitting their report to EPA be extended to February 1, 1987. The Ecological Effects Branch agrees to this extension.
