We have been requested by PM#21 to do a quick record check of subject petition (PP#6F3366, iprodione on potatoes) for five studies apparently submitted by the petitioner, but currently cited as data gaps.

We have examined the RCB copy of subject petition (PP#6F3366). None of the five toxicology studies mentioned by the petitioner's letter of 9-3-86 is available in RCB files.

We recommend that you search PMSD files for these studies.
