(BAYLETON)

1. CHEMICAL: Multiple chemicals. See Table.

2. FORMULATION: Technicals

3. CITATION:

Stevenson, J.H. 1978. The acute toxicity of unformulated pesticides to worker honey bees (*Apis mellifera* L.). Plant Pathol. 27(1): 38-40 ID 05001991

4. REVIEWER: Allen W. Vaughan
Entomologist
EEB/HED

5. DATE REVIEWED: Nov. 5, 1979

6. TEST TYPE: Acute toxicity to honey bees

A. Test Species: Honey bee (*Apis mellifera*)

7. REPORTED RESULTS: See Table.

8. REVIEWER'S CONCLUSIONS:

This study is scientifically sound.
