**SUBJECT: Time extension request for confined rotational crop data  
for reregistration of sodium acifluorfen, chemical code  
114402**

Dear Ms. Blundell:

This letter is in response to your time extension request of September 12, 1994 for guideline requirement 165-1, confined crop rotation data.

You have requested, in this letter, additional time to submit data on metabolite 1 as requested in our review of MRID 427856-01. You propose to conduct a new study rather than upgrade the existing data, MRID 427856-01. You have asked for a time extension of eight months from September 30, 1994 to May 30, 1995 to submit the new study.

I grant your request for a time extension. The final report must be submitted by May 30, 1995. If you do not submit these data within the timeframe provided, I will pursue appropriate regulatory action to ensure your compliance with our statutory goals.

A copy of our review is enclosed. If you have questions regarding this letter, please call the Chemical Review Manager, Tom Luminello, at (703) 308-8075.

Sincerely yours,

Jay S. Ellenberger, Chief  
Accelerated Reregistration Branch  
Special Review and  
Reregistration Division
