NOTE TO PM/INTER-OFFICE USE ONLY: There are 2 labels for this product: label claim 46.7%, which supports the basic and alternate formulations dated 11/10/89, was accepted by the Agency on 4/24/90 & label claim 47.1%, which supports 2 alternate formulations dated 3/21/90, was accepted on 5/17/90. Each label claim is supported by the nominal concentrations of the active ingredient in the respective formulations. No background information was found in jacket to explain these two different label claims. We need to resolve this issue since it is not allowed to have one product with 2 label claims.

COMMENTS: The information on [redacted]

[redacted] was reviewed and coded for use in pesticide formulations. However, before your proposed alternate formulations could be accepted, you should resolve your 2 label claims. You should have only one ingredient label claim

INERT INGREDIENT INFORMATION IS NOT INCLUDED

for one registration and that your alternate formulations should be consistent with your basic formulation (i.e., same % weight of active ingredient) with the label declaration based on the nominal concentration of the active ingredient.
