1.0 INTRODUCTION

The registrant, Gustafson, Inc., has requested an EUP (accession # 071748) to use the fungicide Baytan [beta-(4-chlorophenoxy)-alpha-(1,1-dimethylethyl)-1 H-1,2,4-triazole-1-ethanol] as a seed treatment.

2.0 STRUCTURE

3.0 DIRECTIONS FOR USE

A copy of the proposed label is appended to this review.

4.0 DISCUSSION

The PM orally confirmed that Gustafson has a letter of authorization from Mobay to use any and all supportive data for the use of this chemical.

In its review of 22 June 1983, EAB concluded that currently reviewed data were adequate to support the registration of Baytan for use as a seed treatment (with only minor exceptions). Therefore, such data are also adequate to support the proposed EUP, a copy of which is appended to this review.

Baytan exposure assessment review

Page _____ is not included in this copy.

Pages 3 through 10 are not included in this copy.

The material not included contains the following type of information:

- Identity of product inert ingredients
 - Identity of product impurities
 - Description of the product manufacturing process
 - Description of product quality control procedures
 - Identity of the source of product ingredients
 - Sales or other commercial/financial information
 - A draft product label
 - The product confidential statement of formula
 - Information about a pending registration action
 - FIFRA registration data
 - The document is a duplicate of page(s) _____
 - The document is not responsive to the request
-

The information not included is generally considered confidential by product registrants. If you have any questions, please contact the individual who prepared the response to your request.
