Health Effects Division (H7509C)

THRU: Andrew R. Rathman, Acting Branch Chief *Andrew Rathman*
Chemical Coordination Branch
Health Effects Division (H7509C)

TO: Joanne Miller/Daniel Kenny, PM Team 23
Registration Division (H7505C)

As requested, CCB has screened the toxicology and residue data submitted in support of registration and tolerances for flumiclorac-pentyl on corn and soybeans. All required toxicology and residue chemistry data have either been previously submitted and reviewed with the EUP request, or are contained in the current submission. These studies are generally acceptable. The data may now be placed into full review.
