PRODUCT NAME(S) Heritage Fungicide

COMPANY NAME Zeneca

SUBMISSION PURPOSE revised label (add soil injection and
drench methods of application. add
woody ornamentals)

CHEMICAL AND FORMULATION azoxystrobin, 50% DF

CONCLUSIONS AND RECOMMENDATIONS Clarify the labeling
pertaining to New York State, ^(pg 5) Change
"Heritage flowable" to Heritage Fungicide"
unless only the flowable formulation is
permitted. If that is the case, additional
clarification would be needed.
There has been a recent change in the
Worker Protection Standard (WPS) labeling

regarding the use of the term "waterproof gloves".
Under Personal Protective Equipment, add "Some materials that are chemical-resistant to this product are listed below. If you want more options, follow the instructions for Category A on an EPA chemical resistance category selection chart: Change "waterproof gloves" to "chemical-resistant gloves made of any waterproof material" in the PPE statements and in the Agricultural Use Requirements box.
