SUBJECT: Protocol changes for Bifenthrin aquatic field test

The protocol modifications outlined in a letter from Dr. Horowitz of the Academy of Natural Sciences of Philadelphia to Eunice Cuirle of FMC (8/25/86) reflect adequate incorporation of recommendations made by EEB in reviews and meetings on the subject. Since some of the modifications were made during the conduct of the test, the overall acceptability of the test as specifically relates to these changes must be evaluated on receipt of the final report.
