

US EPA ARCHIVE DOCUMENT

EXPEDITE

- 1. Chemical tebuconazole; Folicur; Elite 2. Petitioner Mobay
- 3. PP# 9F3724/9H5575 4. MRID# 410685-00 thru -03 5. DEB# 5258-5260
- 6. Commodities/Proposal wheat, barley, grass grown for seed, peanuts, grapes; various processed by-products of the above; eggs, milk, meat/fat/meat by-products
- 7. Type (circle)  EX  MP  BP  SC 8. Use (circle)  CGS  STR  ULV  GR  CGT  NF

DEB has been requested to screen this submission for acceptability for full scientific review. This screen focuses on the presence or absence of the residue and product chemistry data prescribed in the Guidelines/Regulations. The adequacy of those data have NOT been evaluated here. Full scientific review and evaluation of the data will likely result in the requirement for additional data in support of the proposed permanent tolerance/exemption. The following screen problems need resolution before the data package is acceptable for full DEB review.

(Check missing or deficient areas and explain)

Comments

- 9. Product Identity/Chemistry  \_\_\_\_\_
- 10. Use Info/Revise Section B  The issues raised in our previous
- 11. Plant Metabolism  screen (3/10/89) of this petition have
- 12. Animal Metabolism  now been addressed. The proposed ANSI
- 13. Residue Data  name is "tebuconazole"; the 45DF
- 14. Storage Stability  formulation is "Elite". Additional
- 15. Geographical Representation  storage stability (freezer) studies have
- 16. Meat, Milk, Poultry, Eggs  been submitted (MRID# 410685-02, -03).
- 17. Enforcement Method  \_\_\_\_\_
- 18. Multiresidue Methods  \_\_\_\_\_
- 19. Analytical Reference Stds  \_\_\_\_\_
- 20. Revise Section F  \_\_\_\_\_
- 21. Processing Data  \_\_\_\_\_
- 22. Other  \_\_\_\_\_

23. DEB RECOMMENDATION

- PASS SCREEN; accept for full scientific review by DEB.
- FAIL SCREEN; corrective action needed prior to acceptance by DEB for full review.

- 24. Reviewer/Date Maxie J Nelson 4/27/89 25. Review Hours 2 26. Section TPS-I
- 27. Section Head/Date Robert J Schmitt 4/27/89 28. Branch Chief/Date R. Loranger for 4/27/89

R. Schmitt, J. Moyer.

# INSTRUCTIONS

1. Chemical - Common Name preferred.
2. Petitioner - Name of Company which submitted the data package.
3. PP# - Obtain from data package. May not have been assigned yet.
4. MRID# - Obtain from data package. May not have been assigned yet.
5. DEB# - Obtain from tracking sheet.
6. Commodities/Proposal - Obtain from data package. List name of each commodity and tolerance level proposed.
7. Type - Circle, as applicable:
  - EX - Expedite
  - SC - Screen
  - MP - Microbial Pesticide
  - BP - Biochemical Pesticide
8. Use - Circle, as applicable:
  - CGS - Crop Grown for Seed
  - STR - Seed Treatment
  - ULV - Ultra Low Volume
  - GR - Geographical Restriction
  - CGT - Crop Group Tolerance
  - NF - Non Food Use
- 9-22. Product/Residue Chemistry Data - Check appropriate box to designate missing or deficient data; give brief comment as to nature of data gap.

Re #19 (Analytical Reference Standard), indicate status; i.e., has the Pesticides Repository, RTP-NC, received the standard(s) yet?
23. DEB Recommendation - Check appropriate box.
24. Reviewer/Date - Sign and date.
25. Review Hours - Estimate of reviewer's total work time.
26. Section - Use abbreviation: TPS-1, TPS-2, TPS-3, SRS-1 SRS-2, RS.
27. Section Head/Date - Initial and date.
28. Branch Chief/Date - Initial and date.
29. cc - Fill in identification number of RD Product Manager from whom the data package originated. Fill in PP# (if assigned) of the data package.
