THROUGH: Roy Sjoblad, Ph.D., Section Head *R. Sjoblad*
Biological Pesticide Section
Science Analysis Branch
Health Effects Division (H7509C)

Action Requested:

SAB has been asked to review an alternate source for Gustafson, Inc.'s Gus 2000 Concentrate Biological Fungicide (*Bacillus subtilis* GBO3).

Discussion/Conclusion:

Since Gustafson is not changing the MPCA and the manufacturing process remains the same; the only difference seems to be the supplier for the beginning materials and concurrently, the source of *B. subtilis* GBO3. Although SAB accepts the alternate supplier as a source of the technical product, a change in supplier for the beginning ingredients should not trigger a review.
