100.0 Comments:

- Confidential Statement of Formula agrees with the label and would be acceptable. However, for your information note that certified limits for the active ingredient should be given in pure form.
- Note the correct spelling of "benzoxazolyl" in the first active ingredient.
- Please note that any additional source of supply must be listed in Confidential Statement of Formula. Therefore, for additional source of supply for MCPA Isooctyl ester which is 93.0% active, submit revised Confidential Statement of Formula and enter correct amount of source product so that it will meet the label claim. Note that source product which you use in this Confidential Statement of Formula is [redacted] active and the proposed additional source product [redacted].
- Submit product chemistry data matrix as required in 40 CFR part 158.155 through 158.190 for the end use product.
