Product Name(s) Combat Ant Bait F 1

Company Name(s) Combat Insect Control Systems

Submission Purpose Examine to ascertain if packaging is CRP

Active Ingredient(s), PC code, & % Fipronil

**Summary of Findings**

Station tested is 2.25" x 2.25" x 0.44" with holes 0.25". The station is 25ml beige HIPS base and 25ml beige HIPS debossed lid flower design index weld. The station sold is the same as the station tested. Station containing lipstick placebo mixture tested with children getting 20 stations (as singles) at the beginning of the test. Failure was defined as evidence of lipstick indicator on the child or meeting a set of criteria agreed to by EPA and the registrant. A child failure was defined as access to more than eight individual bait stations. The results indicate a total of 0 children accessed one or more bait stations. There were no child failures. The study is a pass of the child test according to the sequential test chart in 16 CFR 1700.20. The CRP certification dated 6/25/99 is acceptable.
