MEMORANDUM

SUBJECT: EPA ID No.: 033753-00005. Bronopol: Two-Generation Rat
Reproduction Study: Amendment to Final Report

Case Number: 037342
Submission No.: S398601
HED Project No.: 1-1656
Tox. Chem. No.: 116A

FROM: Krystyna K. Locke, Toxicologist
Section I, Toxicology Branch I
Health Effects Division (H7509C) *Krystyna K. Locke 11/22/91*

TO: John H. Lee/Valdis Goncarovs, PM 31
Registration Division (H7505C)

THRU: Roger Gardner, Section Head
Section I, Toxicology Branch I
Health Effects Division (H7509C) *Roger Gardner 11/24/91*
U-22-91

In August, 1990, Toxicology Branch I/HED has evaluated a two-generation rat reproduction study with Bronopol (No. 510-013; 12/23/87; MRID: 40660901) and classified it as Core-Guideline. However, it was indicated in the review that typographical errors existed in Table 15 (pages 70, 71 and 73) of the submission and that these errors must be corrected (Attachment I).

The current submission---Bronopol: Two-Generation Reproduction Study in Rats (MRID 40660901): Amendment to Final Report; Jacqueline M. Miller, Kit A. Keller and James L. Schardain; April 29, 1991; MRID No.: 419165-02---consists of the corrected pages 70, 71 and 73. Anytime a request is made for a copy of the two-generation rat reproduction study, this amendment (Attachment II) should, therefore, be included.
