Feasibility Study

PPDC Registration Review
Workgroup

September 28, 2004

Feasibility Study

- At the May 2004 meeting, PPDC recommended a study to test the registration review decision process
- EPA agreed with this suggestion
- Feasibility study was conducted in June and July 2004

Feasibility Study

- Purpose: test the decision process and gather data on program costs.
- This is a simulation, not a “pilot”
- Randomly select 28 cases among potential candidates for first five years of program
- Assemble “baseline” information

Feasibility Study

- Ask: What do we know, what do we need to know, and what is the value of the new information?
- Possible outcomes
 - No new assessment
 - New assessment, no new data
 - New assessment, new data
