

US EPA ARCHIVE DOCUMENT

REGISTRATION REVIEW UPDATE for PPDC – October 14-15, 2009Overall Status

EPA is continuing to meet all registration review targets consistent with overall program objectives.

- Over 140 registration review cases are past the Preliminary Work Plan stage.
- Final Work Plans have been completed for 108 cases.
- These totals include cases that were scheduled but which were not required to go through registration review (no active domestic registrations).

FY 2009 Accomplishments

During FY 2009, the pace of registration review continued to accelerate.

- 70 new dockets were opened by AD, BPPD, and PRD.
- 61 Final Work Plans were completed by these Divisions.

Registration Review Progress FY 2007 – FY 2009

Fiscal Year	Dockets Opened	Final Work Plans Completed
FY 2007	25	13
FY 2008	46	34
FY 2009	70	61
TOTAL	141	108

FY 2010 and Beyond; Updated Schedule

EPA plans to issue an updated schedule for the registration review program later in 2009.

- The new schedule will provide the timeline for opening dockets for the next four years of the program, from FY 2010 to 2013, and will include information on dockets that opened in FY 2007 through FY 2009.
- The schedule reflects EPA's plan to open about 70 new dockets each year through 2017. This keeps the Agency on track to complete the first 15-year cycle of registration review by October 1, 2022, for all pesticides registered as of October 1, 2007.
- EPA plans to continue to update the registration review schedule at least annually.
