Mr. Thomas Balf
ML Strategies, Inc.
One Financial Center
Boston, MA 02111

Dear Mr. Balf:

The Campus Safety, Health & Environmental Management Association (CSHEMA), a division of the National Safety Council, represents over 400 member institutions of higher education, all of which have laboratories and laboratory waste materials.

Because the Laboratory Environmental Regulation Project XL, currently proposed by the Laboratory Consortium on Environmental Excellence, has potential to be broadly applicable to all member institutions, CSHEMA wholeheartedly endorses funding of the development of the Project XL Proposal.

We sincerely hope that this project bears fruit in the troublesome field of laboratory waste management.

Thank you.

Warren J. Safters, Chair
Government Relations Committee
for

Martha M. McDougall, Chair
