RE: Draft Project XL Final Project Agreement (FPA), Yolo County Accelerated Anaerobic & Aerobic Composting (Bioreactor) Project

Dear Ms. Walker:

The California Integrated Waste Management Board (CIWMB) has reviewed the subject draft Project XL Final Project Agreement (FPA), as noticed for comments in the Federal Register Vol. 65, No. 168 (Tuesday, August 29, 2000).

The CIWMB, along with the State Water Resources Control Board and Regional Water Quality Control Boards, implement California's approved Subtitle D program and will provide regulatory oversight of this project. In addition, the CIWMB has facilitated resolution of all local and state approvals of this project and will be providing financial assistance if approved by U.S. EPA under the Project XL program.

The CIWMB is supportive of this project to demonstrate the benefits of bioreactor landfills and encourages prompt approval by U.S. EPA so that the project can proceed.

If you have any further questions, please contact me at (916) 255-1198.

Sincerely,

Scott Walker, P.E., C.E.G., Manager
Remediation, Closure and Technical Branch
Permitting and Enforcement Division
