THIRD PARTY CERTIFICATION PROJECT LEADERSHIP AGREEMENT

BETWEEN

INTERNATIONAL PAPER COMPANY - JAY, MAINE FACILITY,

MAINE DEPARTMENT OF ENVIRONMENTAL PROTECTION,

TOWN OF JAY, MAINE and

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY - NEW ENGLAND

I. Introduction

A partnership between EPA-New England ("EPA-NE") and the Maine Department of Environmental Protection ("ME-DEP") has established the New England Environmental Leadership Program ("ELP-NE") to recognize organizations demonstrating leadership in environmental matters. The Third-Party Certification ("StarTrack") element of ELP-NE provides the recognition and regulatory benefits outlined in this agreement to companies such as International Paper Company - Androscoggin Mill, Jay, Maine Facility ("International Paper") that are willing to develop and implement innovative comprehensive accountability systems that track compliance with environmental standards and to correct violations in a timely manner as they are identified. The intended results of the ELP-NE are to increase compliance among participating companies while generating cost reductions for both government and regulated parties.

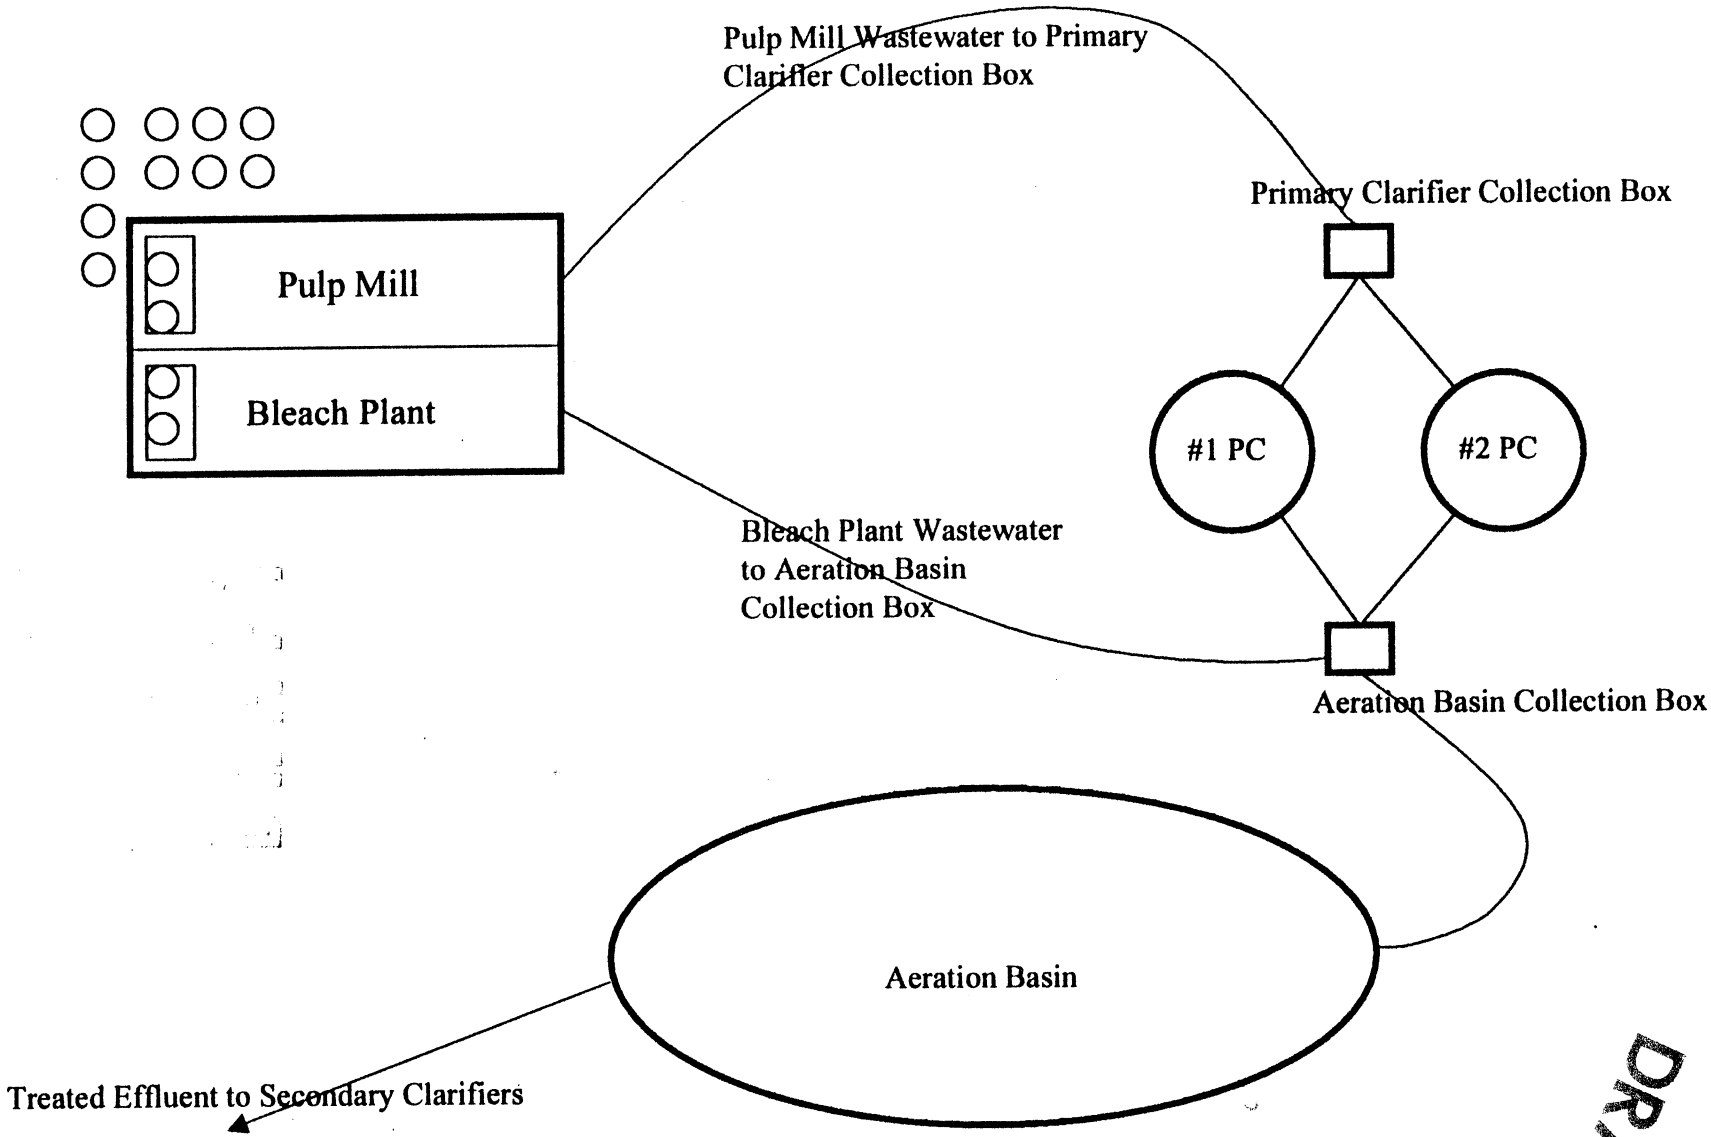
Third-party certification projects are a significant component of the ELP-NE. This Leadership Agreement ("Agreement") to conduct a third-party certification project is entered into by International Paper in partnership with EPA-NE, ME-DEP, and the Town of Jay, Maine to increase environmental performance and assure environmental compliance, allowing more effective use of government enforcement and assistance resources.

II. Commitment to Program

By execution of this Agreement, EPA-NE, International Paper, ME-DEP, and the Town of Jay commit to participate fully in the program and to abide by and adhere to the terms and principles described in this Agreement. The duration of this third-party certification project agreement is one (1) year.

III. Environmental Leadership Program Project

International Paper has chosen a third-party certification system as the compliance and/or pollution prevention project it will develop and test. The Leadership Project Workplan details the provisions of this system. International Paper agrees to share the results of this project with EPA-NE, ME-DEP, and the Town of Jay.



International Paper, Androscoggin Mill
