Office of Solid Waste Management
629 East Main Street
Richmond, Virginia 23219

Re: Amelia County Participation in XL Project
Maplewood Recycling and Waste Disposal Facility
Jetersville, Virginia

Dear Mr. Farrell,

I am writing to acknowledge that Amelia County supports the proposed XL Project at the above-referenced facility. As you know, the XL Project primarily involves recirculating leachate at the landfill. I understand that Amelia County's support is required based on the facility being located in Amelia County, and that USA Waste/Waste Management must comply with certain County requirements, as well as applicable State and Federal rules and regulations. The County requirements are based on local zoning ordinances and a host community agreement between Waste Management and Amelia County.

I acknowledge that the facility is in good standing with all applicable Amelia County requirements. Furthermore, the County Board of Supervisors has not opposed leachate recirculation providing that the VADEQ approve this practice and amend the solid waste permit accordingly.

If you have any questions or comments, please contact me at (804) 561-3039.

Sincerely,

Philip Vannoorbeeck
County Administrator

cc: Lee Wilson - USA Waste of Virginia/WMI

MISSION OF THE BOARD OF SUPERVISORS

To provide open responsive leadership for the County of Amelia and improve the quality of life for all the citizens.
