WATERBODY AU ID	WATERBODY AU NAME	CAUSE OF IMPAIRMENT	DELISTING REASON
INA03A4_P1044	ST. JOSEPH RESERVOIR	MERCURY in FISH TISSUE	AUIDs do not represent real waterbodies. Rather they represent artificial flow paths through a lake or reservoir, which are included in IDEM's Reach Index for the purposes of hydrologic modeling. Their inclusion in the 2008 303(d) list was an error. The St. Joseph Reservoir is correctly listed for these impairments as INA03P1044_00.
INA03A4_P1044	ST. JOSEPH RESERVOIR	PCBs in FISH TISSUE	AUIDs do not represent real waterbodies. Rather they represent artificial flow paths through a lake or reservoir, which are included in IDEM's Reach Index for the purposes of hydrologic modeling. Their inclusion in the 2008 303(d) list was an error. The St. Joseph Reservoir is correctly listed for these impairments as INA03P1044_00.

INB0216_00	SALAMONIE RIVER - MILLER DITCH	CYANIDE	Delisted due to a change in water quality standards – Original water quality criteria used to make assessment are no longer applicable

^C See Table A4, Table A5, & Table A6 under Attachment 1 of Appendix G of the Indiana Integrated Water Monitoring and Assessment Report 2010: Section 305(b) Water Quality Report and Consolidated List, Including Section 303(d) List of Impaired Waters (Category 5) submittal. Also see phone conversation record between Peter Swenson and Martha Clark Mettler dated 10/17/12. In this phone conversation record, IDEM restated its original proposal to delist seven waterbody AU/metal impairment combinations that were listed on its 2008 list based on total metals data assessments, which had been originally proposed to be delisted in its final 2010 list submittal. EPA concurs with IDEM delisting of five of the seven waterbody AU/impairment combinations (*shown in bold italic font* in Table 3). However, the delisting rational for these delistings is based on EPA's own assessment determinations of the available metal data rather than the delisting justifications originally provided by IDEM as a result of the State's revised metals assessment methodology.

^F The waterbody AUs and impairments listed in Table 6 were not included in the calculations of the number counts reported for “newly added waterbody AUs” and “newly added impairments” to Category 5. These waterbody AUs and impairments are a product of the resegmentations of previously listed waterbody segments and therefore are not considered to be true additions. See Table A2 under Attachment 1 of Appendix G of the *Indiana Integrated Water Monitoring and Assessment Report 2010: Section 305(b) Water Quality Report and Consolidated List, Including Section 303(d) List of Impaired Waters (Category 5)* submittal.

^G The impairments listed in [Table 7](#) were included in the calculations of the number counts reported for “newly added impairments” to Category 5. These impairments were not formerly listed under the previous listed waterbody segments that were resegmented. Therefore these impairments are considered to be true additions. See [Table A2](#) under [Attachment 1](#) of [Appendix G](#) of the *Indiana Integrated Water Monitoring and Assessment Report 2010: Section 305(b) Water Quality Report and Consolidated List, Including Section 303(d) List of Impaired Waters (Category 5)* submittal.

^L Table 12 identifies the waterbody impairments listings for metals that EPA is proposing to add to Indiana's 2010 303(d) list (Category 5 of IR) based on its assessment conclusions. These proposed additions include 66 new impairments to waterbody AUs previously listed in Category 5 for other impairments (**shown in bold font**), and 66 waterbody AUs with 73 impairments newly listed in Category 5 (shown in regular font). Also see phone conversation record between Peter Swenson and Martha Clark Mettler dated 10/17/12. In this phone conversation record, IDEM restated its original proposal to delist seven waterbody AU/metal impairment combinations that were listed on its 2008 list based on total metals data assessments. Two of the seven waterbody AU/metal impairment combinations are being proposed to be added to the 2010 list (***shown in blue bold italic font***) by EPA.
