SUMMARY: Notice is hereby given by the United States Environmental Protection Agency (USEPA) that an exemption to the land disposal restrictions under the 1984 Hazardous and Solid Waste Amendments (HSWA) to the Resource Conservation and Recovery Act (RCRA) has been granted to Parke-Davis Division, Warner-Lambert Company, of Morris Plains, New Jersey, for its Class I injection wells located in Holland, Michigan. As required by 40 CFR Part 148, Parke-Davis has demonstrated, with a reasonable degree of certainty, that there will be no migration of hazardous constituents from the injection zone for as long as the waste remains hazardous. This final decision allows the continued underground injection by Parke-Davis of the specific restricted hazardous wastes identified below exclusively into the Class I hazardous waste injection wells at the Holland facility specifically identified as Wells Numbers 3, 4 and 5. This decision constitutes final USEPA action for which there is no Administrative Appeal. Parke-Davis must be in full compliance with all conditions of its permits. Other conditions relating to the exemption may be found in 40 CFR 148.23 and 148.24.
